

Montclair Early Music Art Exhibit

Presented by Carter Fine Art Services

This art exhibit has been specially curated for Montclair Early Music and is presented by Montclair-based Carter Fine Art Services. The art showcased reflects the Black experience as expressed in a variety of ways by several artists through the themes of music, dance, family/community, strength and resilience. A portion of all sales will be donated to help fund the children's music program.

Heather Carter, the founder of Carter Fine Art Services, is known as the "Art-Matchmaker" sourcing every type of art from all over the world with a specialization in Black art. She recently opened a salon-style gallery in the heart of downtown Montclair called Chroma Collective providing art enthusiasts and collectors a warm and inviting environment for a very personalized experience. She welcomes all to come for a visit!
